## Auckland International Airport Arrivals Expansion 3A

○ Auckland International Airport

March 2008

prize

In mid 2007, we were proud to be selected by Hawkins Construction to design, supply and install, what was then, New Zealand's largest grid connect solar system.

- 29.750 Kilowatt Solar Array made up of 170 x Sharp Solar 175W Panels
- 3 x Sunny Boy 3800 grid connect inverters
- 3 x Sunny Mini Central 6000 grid connect inverters
- Isolation and temperature monitoring
- Conergy SunTop III array frames
- Sunny Web Box monitoring system connected to a Sharp LCD display screen
