## Little Barrier Power Upgrade Project

o Department of Conservation

May 2007

This project was completed at the end of June 2007 and is the second major contract that we won to carry out large solar projects for the Department of Conservation.

The system is made up of:

- 3500 Wp Solar Array made up of 20 x Sharp Solar 175W panels
- 1 x Sunny Boy 3800 inverter
- 1 x Sunny Island 5048 battery inverter
- 5 x Pole Top Array Frames
- 1 x 48V Battery bank made up of 24 x Absolyte 2V IIP100A33 cells
