

Ministry of Foreign Affairs and Trade

- o Cook Islands

September 2012 – January 2013

In April 2012 we won a competitive international tender to design, supply and install three grid connected solar power systems for the New Zealand Ministry of Foreign Affairs and Trade (MFAT) on Rarotonga.

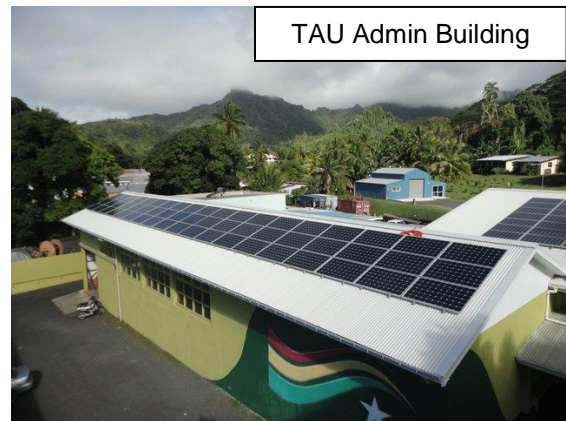

The locations and brief system descriptions are set out in the table below –

Location	System Size (kWp)	Modules	Inverters
Te Aponga Uira Power Station	54 kWp	216 x Suntech 250W modules	6 x SMA Sunny Tripower 8000TL
Te Aponga Uira Admin Building	23 kWp	92 x Suntech 250W modules	3 x SMA Sunny Tripower 8000TL
Ministry of Education Admin Building	27.5 kWp	110 x Suntech 250W modules	3 x SMA Sunny Tripower 8000TL

We commenced the project in September 2012 and it concluded on 18th January 2013 with the grand opening of the Ministry of Education System by the Honourable Henry Puna (Prime Minister of the Cook Islands) and the Honourable John Carter (New Zealand High Commissioner).
