

## **Rakino Solar Power Project**

**March 2007**

2800 Wp Solar Array made up of 16 x Sharp Solar 175W panels  
2 x Sunny Boy 1700 inverters  
1 x Sunny Boy 2500 inverter  
2 x Sunny Island 5048 battery inverters  
Conergy Sun Top II Array Frames

For this project we designed and supplied the components listed above and incorporated them into an existing smaller solar system. We then instructed JLE Electrical as to how to carry out the installation and commissioned the system.
