

Fletcher Construction Limited

○ Te Awamutu Library

September 2016

Fletcher Construction is a long standing client of Reid Technology. This 35.25 kWp solar array is located on the roof of the new library in Te Awamutu. It is made up of 133 x Trina 265W polycrystalline modules mounted on a tilted Chiko array frame. The solar DC power is fed into 1 x SMA STP25000TL and 1 x SMA STP10000TL grid connect inverters.
